Rehearsal Observations

Tyreece Hensley

- The rehearsal started with the dancer doing some ~~the~~ individual stretches
- Melissa and Green started practicing their duet. Their dancing sequence was very aggressive and intense. It involved a lot of heavy breathing and jumps. The movements were ~~so~~ similar to that of a fight. They repeated this sequence two times.
- Afterwards Tane, ~~the~~ Evrim and Beil began to practice their dance sequence. The dance itself was very repetitive and confusing. It ~~was~~ involved a lot of turns and twist ~~however~~ however they stayed within similar format throughout the entire dance. This format involved 2 of the dancers being in line facing the ~~other~~ third in front of them. No matter who was in any position this format stayed the same. They also remained center stage as opposed to the other dances when moved.
- Lastly Su and Yasia ~~the~~ practiced their piece. It was very comical and childish. Many of the dancers laughed throughout the performance. Towards the end however it became quite serious.
- After the ~~idi~~ individual practices, the dancers had a group practice that was lead by Evrim. Akkat sat to the side and watch ~~giving~~ giving advice every now and again.
